

FLEXY

ERGONOMIC STOOL

moveHOP

Adopt a dynamic seating position and tone your body with the ergonomic rocking stool

Seat in fabric and high density foam for optimal comfort and well-being

Rounded, non-slip base for a rocking effect and dynamic seating

Variable height from 56 cm to 76 cm depending on the user's height

Its toggle movement returns immediately and completely to the straight position after use

Easy height adjustment thanks to the pneumatic cylinder located under the seat

2 ergonomic handles to move the stool as you wish

Stable, non-slip base for a better grip on different types of floors and a dynamic movement in full safety

Black epoxy powder coating for the lifting cylinder

Maximum supported weight: up to 120 kg

The Flexy stool, ergonomic and practical, is positioned as a real tool for the prevention of musculoskeletal disorders (MSD). It will allow you to adopt a good back position while strengthening the muscles of the trunk.

With a modern and original design, the Flexy stool will give style to your different work spaces. Practical, you can share it with colleagues and/or take it anywhere you want.

Adopt a dynamic seating position and tone your body with the ergonomic rocking stool
