

MHSITUP BC

Sit dynamically and tone your body with the ergonomic bouncy stool

Alternative to traditional chairs for an ergonomic and optimal working posture (MSD prevention)

Rounded, weighted base with a pendulum effect for dynamic seating
Non-slip base for perfect grip on all types of flooring

Saddle-shaped cushion with high-density foam for optimum seating comfort and well-being

Easy height adjustment via gas spring
Variable height from 55 to 85 cm

The ergonomic and practical SITUP stool is a real tool for preventing musculoskeletal disorders (MSDs). It will help you adopt a good back posture while strengthening your core muscles.

With its modern, original design, the SITUP stool will add style to your various workspaces. It's practical, so you can share it with colleagues and/or take it with you wherever you go.

MHSITUP BC

Sit dynamically and tone your body with the ergonomic bouncy stool
