

# STANDY

WORK STATION « SIT-TO-STAND »

move **HOP**

Alternate your work position for less sedentary while improving your performance and productivity

Ergonomic handle for quick and effortless height adjustment via gas spring system (15cm to 50cm)

Adjusting the high position without notching

Perfect ergonomics of your forearms thanks to its large lower tray

Strong and solid workstation with metallic structure for an optimum stability

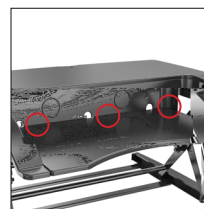

**MHSTANDL2 N**

**MHSTANDL2 BC**

Integrated cable management system for minimum space requirements

The STANDY «Sit-to-Stand» workstation, ergonomic and practical, is positioned as a real tool to prevent musculoskeletal disorders (MSDs). It will allow you to change positions during your working hours for less physical inactivity and better productivity.

Delivered assembled, your workstation is ready to use. You can place it easily on any type of support (tables, desks...)

Quand le beau rejoint l'utile

Alternate your work position for less sedentary while improving your performance and productivity
