

HORPET _____

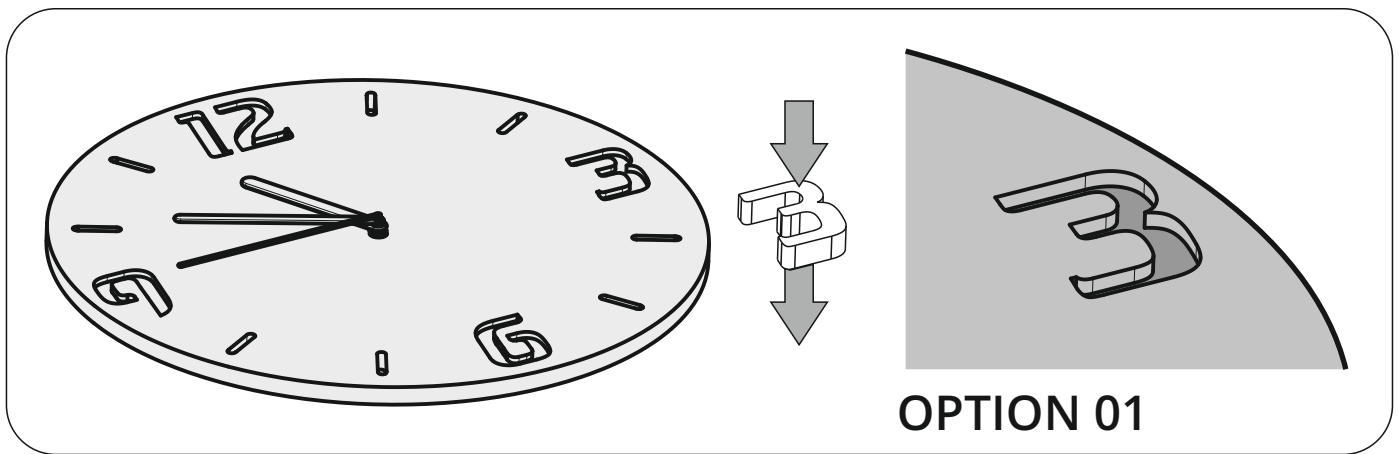

Diagram illustrating Option 01. A clock face is shown on the left. A 3D number '3' is positioned in the center, with a downward-pointing arrow above it and an upward-pointing arrow below it. To the right, a close-up shows the number '3' on a grey background, with the top edge of the number being recessed into the surface.

OPTION 01

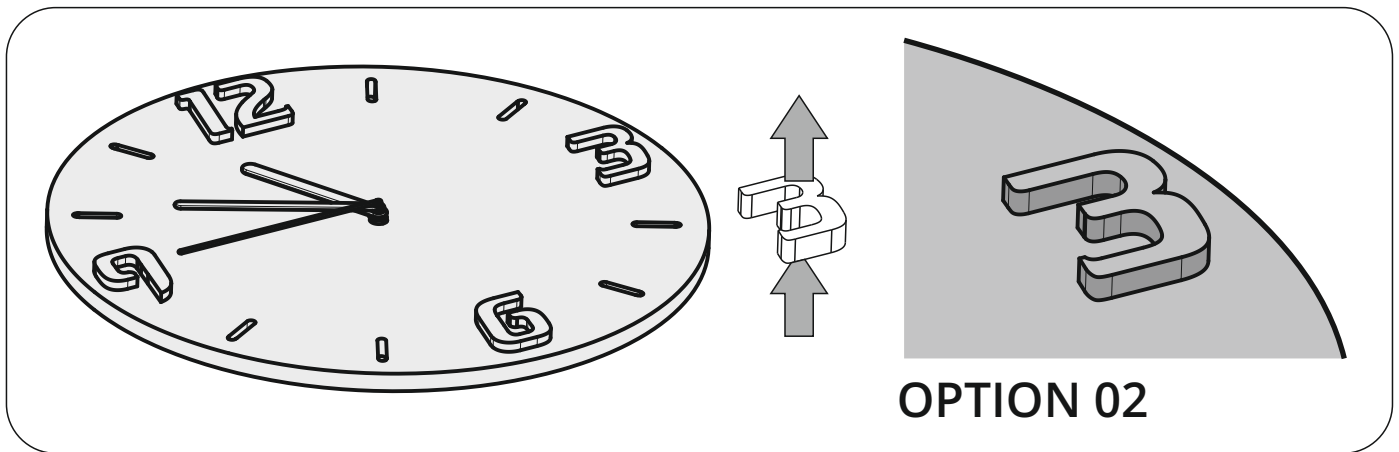

Diagram illustrating Option 02. A clock face is shown on the left. A 3D number '3' is positioned in the center, with an upward-pointing arrow above it and a downward-pointing arrow below it. To the right, a close-up shows the number '3' on a grey background, with the top edge of the number being raised above the surface.

OPTION 02

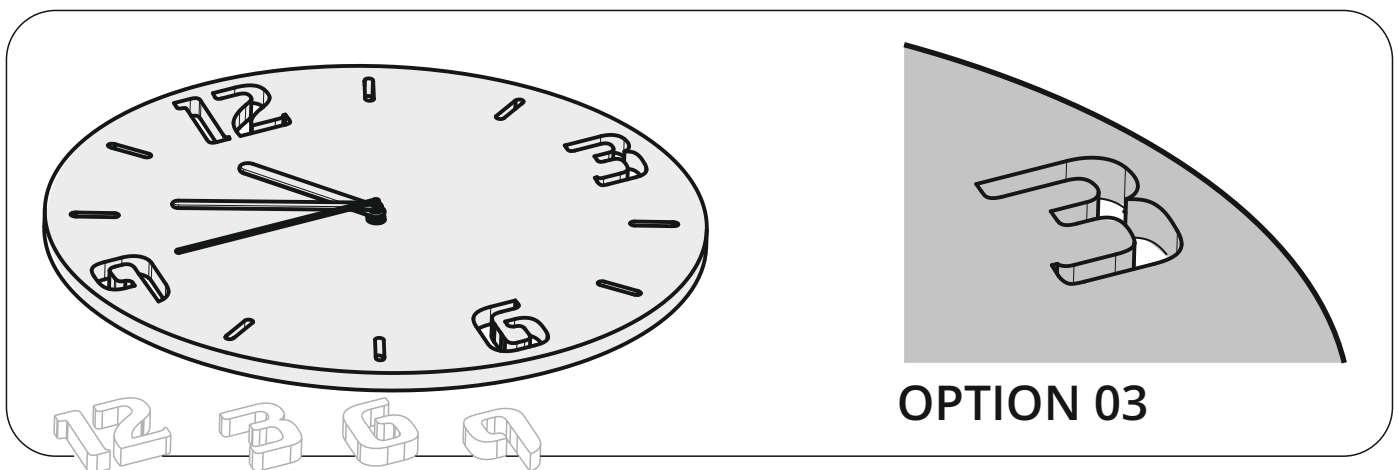

Diagram illustrating Option 03. A clock face is shown on the left. A 3D number '3' is positioned in the center. To the right, a close-up shows the number '3' on a grey background, with the top edge of the number being flush with the surface. Below the clock face, the numbers 12, 3, 6, and 9 are shown as 3D objects.

OPTION 03
