MHBALL G

MHBALL J

The ergonomic and practical seat balloon is an alternative to traditional chairs. A real tool for the prevention of musculoskeletal disorders (MSDs). It will allow you to adopt a good back position while strengthening the trunk and abdominal belt muscles..

With a cool and original design, the seat balloon will give style to your different workspaces. Practical, you can share it with colleagues and/or take it with you wherever you want.

Supplied with an inflation pump and a tip
