MHPAD Ergonomic sitting pad

Get a dynamic posture on your chair with this ergonomic sitting pad: ERGOPAD

Alternative to traditional chairs for ergonomic and optimal working posture (prevention of MSDs)

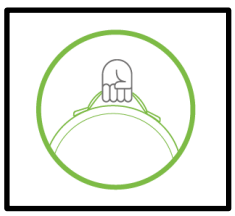

Inflatable pad made of durable and anti burst PVC (max. 130kg)

Handle to transport the pad easily

Supplied with an inflation pump

Removable and machine washable cover (30°)
Easy to remove thanks to its zipper

The ERGOPAD seat pad, ergonomic and practical, is an alternative to traditional chairs. A real tool for preventing musculoskeletal disorders (MSD), it will allow you to adopt a good back position while strengthening the muscles of the body and the abdominal belt.

With its cool and original design, the sitting pad will give style to your different workspaces. Practical, you can share it with colleagues and/or take it with you wherever you want. Key feature: you can match them with the ERGOBALL ergonomic balloons

Quand le beau rejoint l'utile
